

I hope you really think hard before changing the phone consumer protection!! I can say it has truly been a "blessing" for myself and my family and friends!! It was CONSTANT pestering before we signed up to be on the DO NOT CALL list--I mean CONSTANT!!!!!! From 8am, while my young son was still TRYING to sleep, to PAST 9:30pm, while once again, he was TRYING to fall asleep!! Many, many times it was the same companies, day after day. You try to be polite at first, but after the "umteenth" time your patience has worn quite thin to say the least!! Even AFTER being on the DO NOT CALL list, we STILL receive plenty of calls from time to time (again, it seems to be the same repeat offenders) but it is a TREMENDOUS IMPROVEMENT!! I must also say, many of these callers are rude, pushy insulting and even intimidating at times. NO, I DO NOT THINK THIS ACT SHOULD BE CHANGED IN ANY WAY!!!!!! Other states should follow New Jersey's lead and adopt similar laws!!

Thank you very much for your time and interest!!!!

Sincerely,

Michael and Melissa Thoden
